

It is important to me to be able to comment on the possibility of having K-LOVE on FM transmitters displaced by LPFM broadcast service. Our local community is small and no other local radio station provides the kind of programming that is broadcasted by K-LOVE. It provides positive message music appropriate for all ages while still reporting world news and unique stories that will be of greater interest to Christians that never make it to major media outlets. In addition, the service component connects our local residents with nationwide efforts to serve and minister to the needy, disaster victims, and our troops abroad, among others. K-LOVE provides a network for connecting local communities like mine with nationwide organizations and efforts to serve at home and abroad, a clear enhancement to our country, as well as a positive force in my family. Thank you for your consideration of these comments.
